Wheels for Women

OKAY Used Car Donation Program

One Kar Per Year

Would your dealership be willing to donate one used car a year to help a woman in need?

Wheels for Women is helping to improve the lives of women in need of transportation just one car at a time. Currently, we are serving the Cumberland Valley and have more demand from battered, abandoned, single mothers then we have vehicles for. All recipients go through a strict vetting and application process.

100% of all donations go towards providing reliable used transportation to these women. Our board and workforce are all made up of volunteers. Would your dealership consider donating one car per year to this worthy cause?

Please review the attached brochure which has some more information about our nonprofit organization.
